Premier Event

Sculpture in Motion 'Dream Car' Exhibition

Sculpture in Motion welcomes visitors of all ages to experience the history and design of more than a dozen one-of-a-kind, classic pre- and post-war automobiles in this "dream car" exhibition. John Barnes, founder of Cavallino Magazine and The Cavallino Classic, will be the guest curator for the exhibit and there will be tours and special presentations hosted by experts. During the evening, ANSG will be transformed into a unique outdoor showroom for a special VIP cocktail reception with more intimate viewing of the cars.

Sentient Jet, a supporter of ANSG and the presenting sponsor for the event, will be hosting a curated bourbon tasting and chocolate truffle bar. Guests will have the chance to cast their votes for most artistic, most elegant and People's Choice cars, and awards will be presented to winning collectors at the reception that evening.

"Innovation is the theme throughout Sculpture in Motion," said Roger Ward, President and CEO of ANSG. "It confirms that art, science and technology go hand in hand. Visitors will have the opportunity to see more than a dozen rare, pre- and post-war automobiles 'up close and personal.' Some examples date from as early as the 1920s."

The historic Ann Norton Sculpture Gardens were established in 1977 by Ann Weaver Norton to preserve the Historically Registered house and surrounding gardens in West Palm Beach where the artist lived from 1948 until 1982. The rare palm and sculpture gardens, exhibition galleries and artist's studio, offer visitors a unique opportunity to experience the sculptor's holistic vision in its intended setting.
