

An Evening of Music and Art in the Gardens

Under a clear blue sky, loyal supporters for the Ann Norton Sculpture Gardens (ANSG) came together to celebrate philanthropy, music, art and nature with *An Evening of Music and Art in the Gardens*. The annual *Gardens Conservancy* event celebrated Palm Beach resident and ANSG Board of Trustees member, Sara McCann, who received the Ninth Annual *Ann Norton Award for Philanthropy*. The award is extended to an individual who through their leadership and support, embraces the mission of the Ann Norton Sculpture Gardens to enrich lives with nature, art and history.

"I would like to recognize our Trustee Sara McCann, and her husband Jim, who have devoted their visionary leadership every step of the way to the growth of the Ann Norton Sculpture Gardens with innumerable contributions of their talent, time and support," said Frances Fisher, Board Chairwoman for the Ann Norton Sculpture Gardens. "We are grateful for Sara's leadership, generosity and service to the community for over 20 years and we are proud to honor her with the *Ann Norton Award for Philanthropy*."

During the event, guests were entertained with a musical performance by Nicolas King, a distinguished jazz singer of standards, classic jazz and Broadway show tunes.

In her absence, Jim McCann read remarks from his wife Sara. "I have enjoyed serving on the board for several years," said Mrs. McCann. "When Frances Fisher asked me if I would consider joining, it was an easy yes. We started coming to the Gardens through our daughter Caroline who was attending Palm Beach Day Academy at the time. The two institutions have been great partners in education over the years."
