FALLING SLOWLY

Music has the power to transform lives and forge deep relationships. At least, that's the message at the core of the charming hit musical *Once*, onstage at the Kravis Center in West Palm Beach November 27. The 2007 film of the same name introduced audiences to "Guy," a down-on-his-luck Irish busker, and "Girl," a Czech flower peddler who happens upon Guy while he's performing on the streets of Dublin. Guy is at a turning point in his career—if you can even call it that—but Girl's passion for his talent proves to be a huge influence on him, both professionally and personally. Of course, love stories are seldom simple, and while Guy and Girl hit it off musically, they face challenges when it comes to finding harmony as a couple. Throughout their week together, they pen hauntingly heartbreaking odes such as "Falling Slowly" and "If You Want Me," tunes that helped the Broadway adaptation earn the Tony Award for Best Musical.
